PARTNERING WITH PATIENTS IS KEY TO SAFER TRANSFUSION

Webinar

Tuesday 21 October 2025
12:00 to 13:00 CEST

- Join us for this interactive webinar exploring how engaging patients in their own care and to improve organisational safety can build trust, strengthen learning and enhance safety
- We will share insights from SHOT and experiences from UK and discuss how co-production is vital to tangible improvements.
- See how safer transfusion is not just about systems- it's about people and having patient voices at the heart of transfusion safety
- This is an opportunity to also hear from a patient perspective and understand the importance of the patient voice

This virtual event is free to attend - please register to get the Zoom link to join the webinar
