

## **SHOT and National Comparative Audit (NCA) Webinar**

**Tuesday 4<sup>th</sup> November 2025, 13:00 CET**

**SHOT and NCA are pleased to announce this collaborative webinar that will illustrate how audit can be effectively targeted using resources such as SHOT data. Join us for examples of 3 recent audits, as we discuss how you can use the reported data to improve the quality of patient care.**

Hear the key highlights from the national audits of NICE quality standard QS138, bedside transfusion practice and major haemorrhage protocols

See how these link with key SHOT messages

Learn how to use the information in your NCA audit report and how you can influence change and improve practice

The hour-long webinar will include a 15 minute interactive Q&A session

Come away with ideas, direction and resources to turn your data into actionable insights

This webinar will be particularly relevant to Transfusion Practitioners and Clinicians, but will also provide valuable insights and transferrable messages for Laboratory Staff

**This 60-minute webinar is free to access but you will need to register to be able to attend.**
