

Headline 2025 data

Total cases included	Deaths	Major morbidity
3440	46	136

Figure 1: Reports by SHOT category and clinical outcome 2025 (excluding near miss, n=2294)*

*Note: the number of deaths or major morbidity <5 are too small to be represented on Figure 1 as data labels

Near miss (NM) reports:

Wrong blood in tube (WBIT)

832

Other NM

314

Figure 2: Paediatric reports in 2025 (n=296)

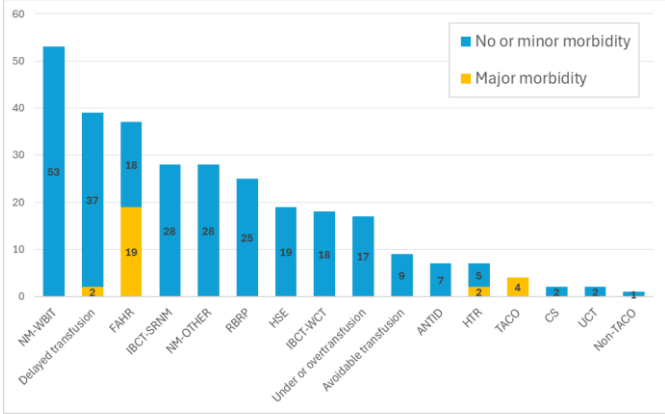

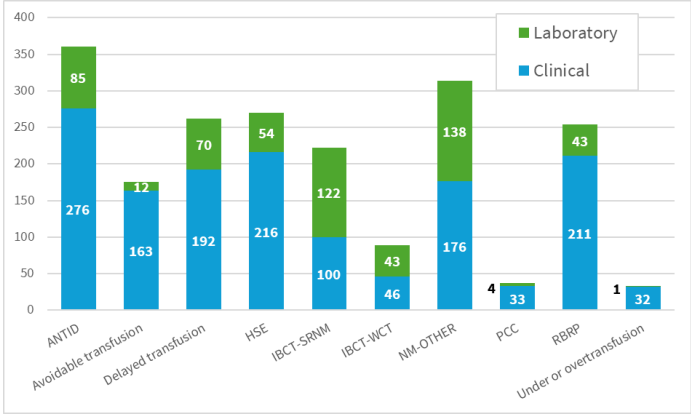

Figure 3: Laboratory and clinical reports 2025

Other types of report (not included in headline data above):

ACE
6

Blood Service SHOT reports
2

Anti-D immunisation
51

Abbreviations used: ACE=acknowledging continuing excellence in transfusion; CS=cell salvage; FAHR=febrile, allergic and hypotensive reactions; HSE=handling and storage errors; HTR=haemolytic transfusion reactions; IBCT-SRNM=incorrect blood component transfused-specific requirements not met; IBCT-WCT=IBCT-wrong component transfused; Ig=immunoglobulin; PCC=prothrombin complex concentrate; TACO=transfusion-associated circulatory overload; RBRP=right blood right patient; UCT=uncommon complications of transfusion

Calendar year participation data - 2025

England issue data 2025

Red cells	Platelets	Fresh frozen plasma (FFP)	Solvent-detergent-FFP	Cryoprecipitate	Granulocytes	Total
1,322,771	247,338	169,596	60,215	41,264	2,100	1,843,284

Total reports submitted	
4243	
Reports from hospitals	Reports from Blood Services
4204	39

Reports per 10,000 components issued	
23.0	
Hospitals	Blood Services
22.8	0.2
