

Headline 2025 data

Total cases included	Deaths	Major morbidity
66	0	5

Figure 1: Reports by SHOT category and clinical outcome 2025 (excluding near miss, n=39)

Near miss (NM) reports:

Wrong blood in tube (WBIT)
13
Other NM
14

Figure 2: Paediatric reports in 2025 (n=7)

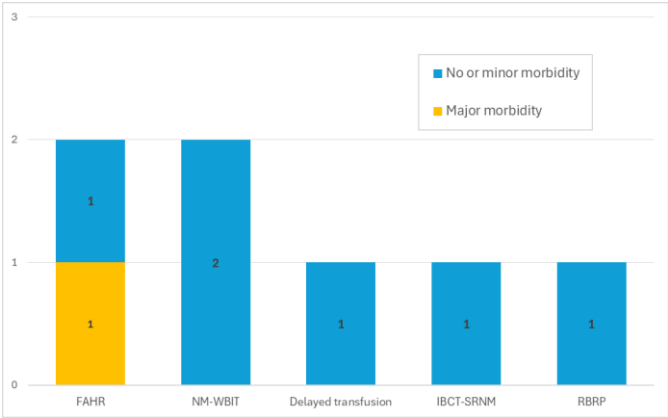

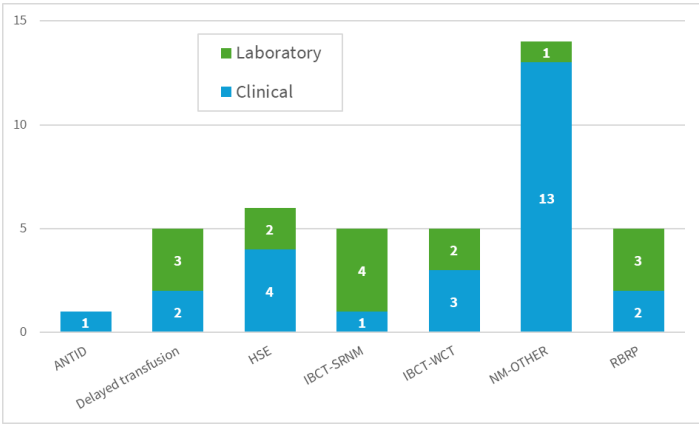

Figure 3: Laboratory and clinical reports 2025

Other types of report (not included in headline data above):

ACE
0

Blood Service SHOT reports
0

Anti-D immunisation
3

Abbreviations used: ACE=acknowledging continuing excellence in transfusion; CS=cell salvage; FAHR=febrile, allergic and hypotensive reactions; HSE=handling and storage errors; HTR=haemolytic transfusion reactions; IBCT-SRNM=incorrect blood component transfused-specific requirements not met; IBCT-WCT=IBCT-wrong component transfused; Ig=immunoglobulin; PCC=prothrombin complex concentrate; TACO=transfusion-associated circulatory overload; RBRP=right blood right patient; UCT=uncommon complications of transfusion

Calendar year participation data - 2025

Northern Ireland issue data 2025

Red cells	Platelets	Fresh frozen plasma (FFP)	Solvent-detergent-FFP	Cryoprecipitate	Granulocytes	Total
41,087	8,376	4,194	2,625	1,002	0	57,284

Total reports submitted	
107	
Reports from hospitals	Reports from Blood Services
100	7

Reports per 10,000 components issued	
18.7	
Hospitals	Blood Services
17.5	1.2
